## Deschutes Forest Supervisor Named

David G. Mohla has been named Forest Supervisor of the Deschutes National Forest, headquartered at Bend, according to Pacific Northwest Regional Forester R. E. Worthington, USDA Forest Service.

Mohla, who is now deputy forest supervisor of the San Bernardino National Forest in California, will take over his new post effective January 11, Worthington said, succeeding Earl E. Nichols, who retired at the end of August.

Mohla has served on three National Forests in California, starting on the Mendocino Forest in 1956 following graduation from the University of Georgia with a degree in forest management. He later was a District Ranger on that Forest, then a District Ranger on the Tahoe National Forest, 1965-77, and has been at San Bernardino since April 1977.

He and his wife, Marilyn, who is a native Oregonian and graduate of Oregon State University, have two daughters, Kathleen, 20, and Mary Anne, 17. Mohla is a member of the Society of American Foresters and Toastmasters International.

## Forest Service recruiting seasonal help

Applications will be accepted through January 15, 1981, for temporary and seasonal employment with the Forest Service. Application forms (6100-23) are available at all Forest Service offices and must be postmarked no later than January 15 to be considered.

Positions to be filled are non-clerical and include jobs as aids and technicians in forestry, range management, physical science, engineering, surveying, biological science, and hydrology. Applicants must be 18 years of age at the time they report for duty and must be capable of performing arduous work.

Applicants may submit only one application to the Forest Service, and may indicate only one location preference. Applications must be sent directly to the appropriate Regional Office or Research Station.

Regulations have been amended by the Office of Personnel Management to allow summer employment of a son or daughter by the same agency as the parent under certain conditions.

All applicants will be given equal consideration without regard to race, color, sex, creed, or national origin. Education, availability, and work experience will determine an applicant's chance for employment.

## Revenues Returned to Oregon, Washington Counties

Thirty-one counties in Oregon and 27 counties in Washington received \$131.5 million as their share of revenues from the sale and use of national forest products and services in fiscal year 1980.

The Oregon amount totals \$98,888,365.36, and the Washington amount totals \$32,708,540.02, according to Regional Forester R. E. (Dick) Worthington, USDA Forest Service. Last year's record totals were \$121,081,427.06 and \$40,288,844.32. The counties received approximately three-fourths of the 1980 amounts at the end of the fiscal year, and the remainder was disbursed this week.

The money returned to the states, and in turn the counties, represents 25 percent of the money collected by the Forest Service from the sale of timber, and from grazing, recreation, minerals, and other land-use charges where national forests are located. The money is to be used for public schools and roads.

The amounts to the counties have been greater since passage of the National Forest Management Act of 1976. The base on which state shares are now figured includes credits made to timber purchasers for building roads, and funds used by the Forest Service to improve timber sale areas. Before passage of the Act, these were not included in the base on which the 25 percent was figured, Worthington said.

Oregon leads the nation in its share of the \$234,495,610.87 distributed to 40 states and Puerto Rico; Washington ranked third, with California second.

(more)

Following are the amounts paid to each county (including interim payment Oct. 1) for FY 1980:
